Anti Nazi League

NO RACIST RESEARCH
NO RACIST FUNDING

Sack this racist professor!

UNIVERSITY of Ulster at Coleraine, Psychology Professor Richard Lynn is a racist.

He is engaged in "research" to "prove" that blacks are less intelligent than whites.

He has received $325,000 from the US-based Pioneer Fund, a far-right body that promotes a white master-race philosophy.

Lynn is the only academic in Britain and Northern Ireland to have accepted money from these racists.

He recently wrote in the Irish Independent and The Times an article which claimed that many unemployed people were mentally retarded.

Women are also targets of his bigotry. Lynn argues that they are less clever than men, hence their second class status.

Lynn writes for their magazine, *Mankind Quarterly*, which is run by Roger Pearson, who has a long history of far-raight activity.

A previous editorial advisor to the magazine was the Nazi scientist Otmar von Vershuler.

Richard Lynn is not just an eccentric. He belongs to the *Chelsea Group*—a far right think tank which includes Nazi historian David Irving among its members.

Lynn's ideas and his position as a lecturer provides a respectable justification for the thugs who burn down immigrant hostels and the boot boys of the BNP.

With the frightening rise of the Nazis around Europe, so called research like Lynn's which is simply racism pretending to be science, is unacceptable. He should be sacked.

JOIN THE ANTI NAZI LEAGUE

❑ I want to join the ANL and enclose £5 / £1 (unwaged)
❑ I want copies of the petition against Richard Lynn
